

LDF Cabinet Committee 15 April 2009 – proposed change to Item 5 (RSS Single Issues Review)

These changes are proposed in the light of the publication of the final draft of the Essex GTAA:

Para 17 – delete first sentence, and replace “it” in second sentence with “The draft GTAA”. Add a new final sentence “Its baseline estimate of need for Epping Forest District is for 30 pitches between now and 2013.”

Para 18 – delete

Para 20 – replace with “The assessment of local need based on current evidence therefore suggests an upper level of 40, with the best available evidence from the GTAA suggesting local need of around 30 pitches. Redistribution towards areas with less concentration/delivery problems could lower this further. The Secretary of State is effectively suggesting the transfer of a proportion of local need to East Hers District in the RSS response.

Para 21 – 1st sentence – after “expect”, replace with “as a case could be made on the basis of the draft GTAA for a figure closer to 30 pitches, or slightly lower if there were redistribution to other areas; 2nd sentence – add “alone” after “need” and replace 34 with 30.
